

WonderWall

A Scenic Modular Product

Absolutely perfect for the Live events industry, the WonderWall is a scenic modular product that is now available for rental from PRG Projects. Its exclusive creative triangular design offers unique possibilities, integrating high-resolution LED, lighting fixtures and scenic elements, e.g. mirrors, on the rotating device, tiltable and fully controllable through a lighting desk. The WonderWall can be integrated as part of a normal video screen, creating a surprise effect to the audience.
