

ICON STAGE

Icon Stage is the latest fixture in the Icon range. Featuring a high output LED engine, Icon Stage outputs a blinding 14,000 lumens at a colour temperature of 7,500k.

Full of features you would expect including 8-56° zoom optics, full CMY Colour mixing alongside a fixed colour wheel and variable CTO. 8 fixed gobos and 7 rotating give the fixture class leading functionality, coupled with full framing shutters, iris and prism functions and dual drop in frosts the Icon Stage is truly in a class of its own.

Icon Stage is whisper quiet during operation. Direct Art-Net input and DMX512 is available for control of the fixture.

Features:

Source	420W White LED	Pan/Tilt	540/270°
Brightness	14,000 Lumen	DMX Control Mode	2 modes
Colour Temp	7,500K	RDM	Yes
CRI	>90 @ 10,000 Lumen 75 @ 14,000 Lumen	Art-NET	Yes
Optics/Zoom	8°-56°	Cooling System Monitoring	Yes
Frost	2x drop in frost	Wattage	536W
CMY	Variable CMY	Power	AC100-240V, 50/60Hz powerCON TRUE1 & pass through
CTO	Variable CTO	Operating Temperature	-10° to 45° C
Colour Wheel	7+open (interchangeable)	Certification	CE & cETL
Rotating Gobo*	7+open (interchangeable)	Weight	29kg
Fixed Gobo	8+open (interchangeable)	Dimensions LxWxH (mm):	453x393x720
Iris	Yes		
Framing	4 frames	Glass Gobos:	
Framing Rotation	+/- 45°, 90° total	Material:	Borofloat, 1.1mm thickness
Prism (Indexing)	5 Facet	Outer Diameter:	25.34mm
Animation Wheel*	Continuous Rotation	Image Diameter:	20mm
Strobe/Shutter	Electronic, 13 Flash/sec		
Dimmer	5 dimming curves, 16Bit	*Indexing
